Among the trophies captured by Field Marshal Oyama were "thirty-two carts full of maps," showing that Kuropatkin was evidently studying up the routes that led to St. Petersburg.

If the law against selling whisky to confirmed inebriates was enforced in Maysville, there'd be more bread and meat on some dinner tables, more smiling mothers and sisters,—and even the saloon-keeper might feel a trifle better to know that he had contributed to that object.

The Times-Star says the collapse of the recent short-lived strike in the New York subway presents one very important lesson to all members of American Labor Unions. This lesson is to the effect that a Labor Union can no more afford to disregard a contract entered into in good

Lesson of a Strike

faith than can a private individual or corporation. By disregarding their contract with the Interborough Company, the striking motormen of the subway lost public sympathy at the very beginning. And without a just cause and the sympathy of the people behind it, no important strike has any great chance of success in this country.

The blame for the subway strike fiasco should undoubtedly be laid upon the shoulders of the local leaders of the subway employees Unions. These local leaders not only led their men to

violate their contracts with the Interborough Company; they also led them to openly violate the laws of their National Union.

Ever since the operation of the subway began, the conduct of these local leaders has been marked by bullying and nagging at the officers of the subway operating company, which was sure to bring trouble sooner or later. It is only unfortunate that this trouble, when it came, was sure to involve as chief sufferers a number of innocent or, at the worst, gullible men, who are now in danger of losing permanent and lucrative positions as a result of the uncalled-for arrogance and short-sightedness of a few local leaders, drunk with an overappreciation of their own importance and authority.

That the feeling of intelligent Unionism throughout the country is opposed to such violations of contract as that of which the subway motormen were guilty seems to have been made apparent by the action of the President of the National Brotherhood of Locomotive Engineers in taking up the charter of the offending local. The effect of the action of President Stone cannot fail to be good. When the day arrives—and it is surely coming soon—when the contract of any American Labor Union is universally recognized as a thing to be absolutely depended upon, the labor question in this country will have advanced a considerable distance toward a settlement, satisfactory alike to employer and employee.

Political Pickings

WRONG KIND OF AMERICANS.

Louisville Courier-Journal.

At a meeting of Irish-Americans in New York a few nights ago a resolution was adopted extending to the Government of Russia "heartfelt sympathy in the struggle they are now carrying on with England's ally, Japan." It is all very well for our Irish brothers to denounce England if they wish, but they will gain nothing for their cause by offering sympathy to the most oppressive land-grabber and cruelest exponent of militarism to be found among all the Nations of the world.

If Constipated, Do This.

This often may not appear again. There is no such thing as a free lunch. If Mull's Grape Tonic does not positively cure Constipation you are out nothing, as you may have the first bottle free. If it cures, which it will, tell others; that is all we ask. No remedy has ever before been known to cure Constipation permanently. Mull's Grape Tonic is not a physic. It is unlike anything you have ever used. It cures Constipation. If it did not this often would ruin us. The process is gradual but sure. You know from your own experience that physics, like Pills, Salts, Castor Oil, Mineral Waters, Injections, etc., make you worse.

Where can Mull's Grape Tonic be had? Your Druggist sells it. The 81 bottle contains nearly three times the 50c size, but if you will write today to Mull's Grape Tonic Co., 217 Third Avenue, Rock Island, Ill., and give Druggist's name, you will receive the first bottle free with full instructions. This gives you a chance to prove to you of our expense that it is a wonderful remedy and places you under no obligation to invest a penny. Only tell your friends about it.

FREE CORN FOR SEED.

On Monday, April 3d, 1905, County Court Day, I will give to the farmers of Kentucky and Ohio, whose farms are located outside of Maysville ten ears of seed corn, a part of the corn that was exhibited at the Tobacco Fair, February 22d, 1905. In order to get this corn it will be necessary for you to cut this advertisement out, and write your name and address in the blank space below arranged for that purpose, bring to my office, No. 215 Court street, any time after nine o'clock of that day. Those who come first will be sure to be accommodated. This is said to be the finest lot of corn ever exhibited. Don't ask for more than ten ears because you will be refused. This is sufficient to give you a fine start for seed corn next year. Remember, you can get either white or yellow as long as the supply lasts. No conditions are imposed upon you, but every farmer is requested to make preparation for an exhibit of corn, wheat, potatoes and tobacco at the Fair which will be held next February.

"There Isn't One Really Good Printer in Five Hundred."

Printers' Ink—the leading journal on publicity of all kinds—has the following to say: "There are thousands of printers in this country, good, indifferent, and a lot of bad ones. There isn't one really good printer in five hundred. Intelligent advertisers are willing to pay for good printing, no matter where it comes from."

Printers' Ink knows what it is talking about. Poor printing is a bad investment—it's worse than a blank. A business man's stationery or booklet is like a traveling man—if it's neat, well-dressed and to the point, the first impression is good and your chances of doing business on the strength of it are good.

We realize this. We keep abreast of the times. We know what good printing is and produce it. We are pretty careful not to let a bum job get onto our presses. No press in the country can better our printing and we want you to know it.
